25 - Please comment on the text and/or materials.

Response Rate	6/20 (30%)

• Inconsistent technology with R Studio requirements for labs, coursework was more statistics than political science

• Needed

• The textbook and materials that were provided were very helpful for the class itself and it gives more insight to the deeper learning that we are trying to get into.

• All the books correlated with the correct assignment so we did not waste our money.

• The required text was a great supplement to learning the course material. Reading the required chapters each week was the perfect introduction to the lectures.

• Very boring.

26 - What were the instructor's greatest strengths?	
Response Rate	8/20 (40%)

• Doctor degree

• Detailed notes

• I think that the professor is great at the teaching face to face and to help us fully understand the concepts that she is trying to get across to us as well as she is very good at making time outside of class in her office hours to help you and others get the understanding of the work that we are doing and it helps us get the materials done and understand it for future classes.

• She is extremely smart. Sometimes I feel as if she was a little to smart for us, but she helped us with every assignment which was extremely nice.

• The class was paced very well, and the instructors passion and understanding of the material was crystal clear.

• She was very helpful outside of class. She knew what she was talking about.

• Can individualize tasks and make it easy to understand especially in one on one instruction.

• Very knowledgeable about the subject and gives great feedback on all assignments.

27 - How do you feel the instructor could have improved the class?	
Response Rate	5/20 (25%)

• Provided a consistent political science base curriculum that is conducive to all majors

• N/A

• She did great for the class, but I think maybe making some lectures shorter and not being as repetitive with certain subjects we are learning.

• Some topics I wish we could have spent a little more time over, or on lab days it would have been nice if she did a couple of questions with us and then let us finish the rest.

• grade our assignments and put them in a little quicker so we know where we are sitting in the class.

28 - Please use the space below to issue additional personal comments about the instructor/course that you found beneficial, helpful or would like see changed if you had to take this instructor/course again.	
Response Rate	3/20 (15%)

• N/A

• She was overall a great professor. Very understanding, always responded to my emails, gave participation points as well. She does grade very difficult, but I have never failed an assignment. If I had a question, she always answered as quick as she could. Like I stated above, I would not of mind a little more feedback on labs or maybe even going over the labs some days, but other than that this class was fine.

• I think the format and the class is very confusing to keep up with.
